Camera Ready!**

Freehold Soil Conservation District

Freehold SCD is a special purpose subdivision of the New Jersey Department of Agriculture serving Middlesex & Monmouth Counties. We are one of 15 NJ soil conservation districts empowered to conserve and manage soil and water resources in cooperation with the State Soil Conservation Committee. We address soil erosion and sedimentation problems that result from land disturbance activities.

The district is the primary local agency responsible for monitoring nonpoint sources of pollution associated with construction, agriculture and mining. Technical services of the USDA —Natural Resources Conservation Service are made available through the district. We also provide free environmental education outreach programs within the two counties.
